Workshops for supervisors,
Prizes for best poster
and presentation,
Talks with international
experts in the field,
Welcome reception dinner,
Conference dinner
and more!!

[Learn more about
ORPHEUS 2020 here!](#)

Hi there, fellows!

Are you a Ph.D. student on Medicine, Biomedicine, Life and Health Sciences or a similar field? Have you ever thought about how to improve communication with your supervisor and the learning process to get the most of this journey? If so, we are on the same page and you should join us at the conference of the year!

We're a bunch of Ph.D. students from the School of Medicine of the University of Minho with concerns and interests, mirroring your own. We want to invite you to visit the city of Braga (Portugal) on April 2nd-4th for our ORPHEUS 2020 conference held by the Organization for Ph.D. Education in Biomedicine and Health Sciences in the European System!

It is the perfect place to exchange views on learning in the context of a Ph.D. program or research. Plus, you can gather invaluable tips from opposite sides of the same coin (students and supervisors) about the challenges of doctoral education. We'll have lectures with international speakers from diverse backgrounds within the educational system and workshops tailored for students and supervisors!

Above all, get ready for some good times where fun, as well as learning, is a part of the equation. Come talk with us if you need help to convince your supervisor or school advisors and don't forget... We have special discounts for students!

We can't wait to hear from you!
